

Email from Ground Control 7th October 2013

I work for Ground Control who are the tree contractors for Western Power. We require to do some work in Wilsford on Parish Council land, below is the work we require to do I also attach a map showing the location of the works.

Site 83: Fell all Ash within 4 metres of the overhead line, and windrow brash to the side of the line

Site 84: Fell two Cherry to ground level and Side Prune one Ash away from overhead line to gain a 4 metre clearance, remove all arising's from site

Site 85: Remove ivy from poles, remove all arising's from site We plan to do the work in the next few weeks, if you could please get back to me regarding the works it would be much appreciated. Best Regards,

Chris Almond
